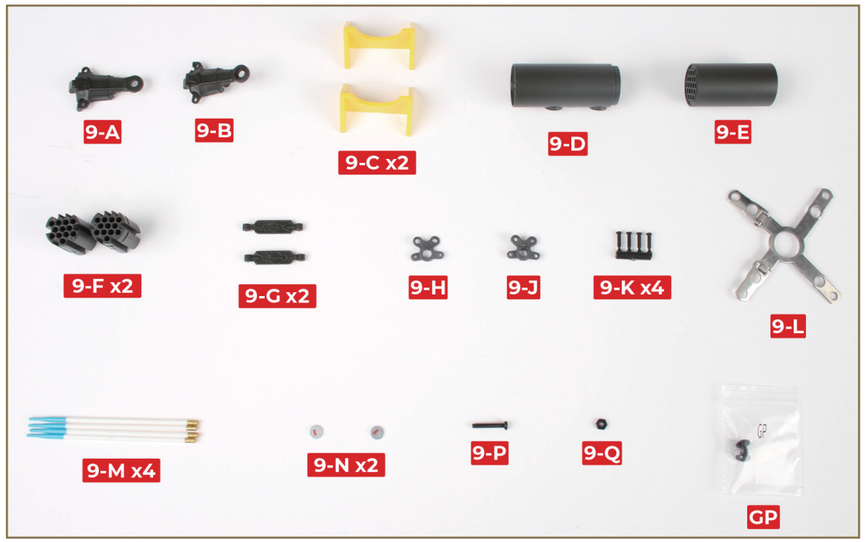
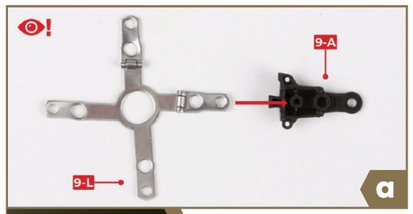
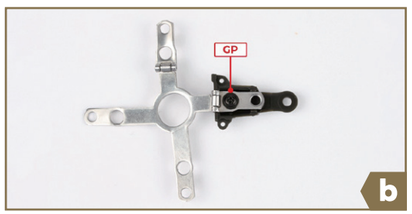
# STAGE 09 安裝主旋翼葉片







STEP 01

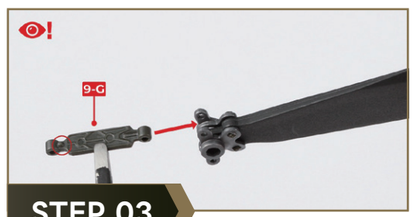
**將 9-L 壓入 9-A。請仔細確認9-L的安裝方向。**

Press 9-L onto 9-A. Check the orientation of 9-L carefully.
Screw the parts together using 1x GP.

STEP 02

**使用 1 顆 GP 螺絲固定。**

Push 9-B onto the assembly.



STEP 03

**將 9-G 壓入第 02 期完成的主旋翼葉片組件。**
**請仔細確認零件方向。9-G 上有一個定位插銷(圖中已圈示)。**

Push 9-G into the rotor blade assembly from stage 02.
Check the orientation of the parts carefully.  There is a pin on 9-G (circled).

STEP 04

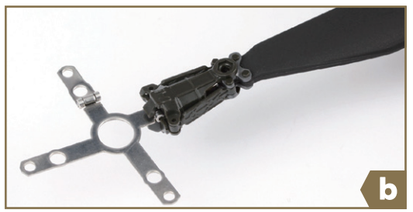
**請仔細確認零件方向。將一個9-K插入9-G。**

Insert 1x 9-K into 9-G.

STEP 05

**在另一側重複相同步驟，並注意零件安裝方向。**

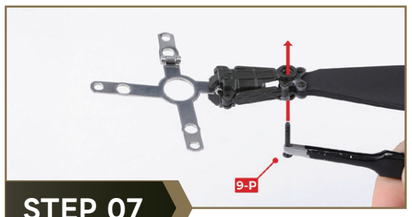
Repeat this process on the opposite side, paying attention to the orientation of the parts.



STEP 06

**將兩個 9-G 壓入 9-A 與 9-B。  組裝完成後應呈現如圖所示。**

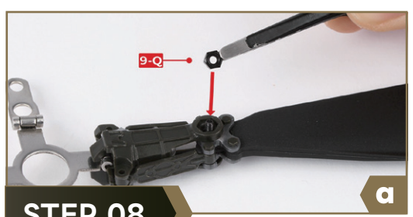
Push both 9-G into 9-A and 9-B. The assembly should now look like this.

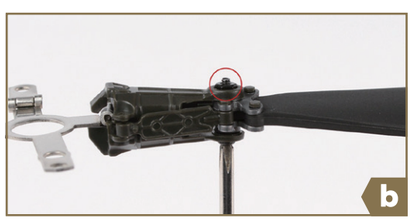


STEP 07

**從下方插入 9-P。**

Insert 9-P from underneath.

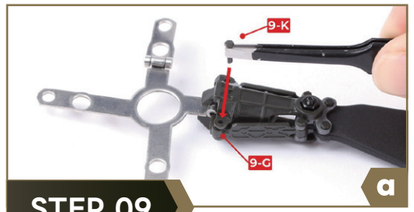


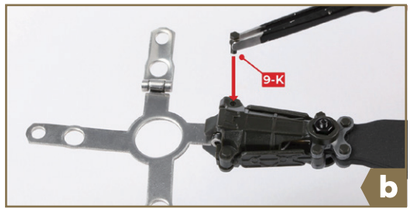


STEP 08

**將 9-Q 放置於上方。  將 9-P 鎖入 9-Q。**

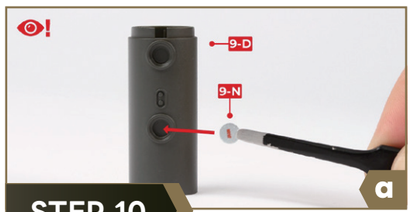
Place 9-Q on top.  Screw 9-P into 9-Q.





STEP 09

**將 9-K 分別穿過兩側的 9-G。**
Insert 9-K through 9-G on each side.



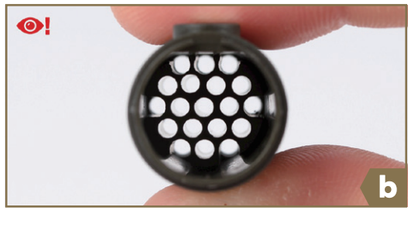
STEP 10

**接著開始組裝另一具火箭彈倉。**
**將 9-N 黏貼至 9-D。**
**請確認紅線標示的一面朝外，如圖所示。**
**將另一個 9-N 黏貼至 9-D 的另一側。**
**同樣請確認紅線標示朝外。**

You will now start building another rocket launcher.
Glue 9-N onto 9-D. The side marked with a red line should face outwards as shown.
Glue the other 9-N to 9-D as shown.

**出廠時9-N零件已組裝至9-D上，可跳過此步驟。**
**若您的零件未完成組裝時，再依照步驟進行黏貼。**

The 9-N parts are pre-assembled onto the 9-D at the factory, so you can skip this step.
If your parts are not fully assembled, then follow the steps to attach them.



STEP 11

**將 9-F 壓入 9-D。 請確認零件方向正確對齊。 請勿使用膠水固定。**
Push 9-F into 9-D. Make sure the parts are aligned. Do not use glue.

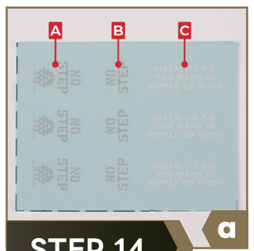
STEP 12

**將另一個 9-F 壓入 9-D。 確認 9-M 能夠順利穿過所有孔位。**
Push the other 9-F into 9-D.
Check that 9-M can fit through all the holes easily.

# 組裝說明 ASSEMBLING INSTRUCTION

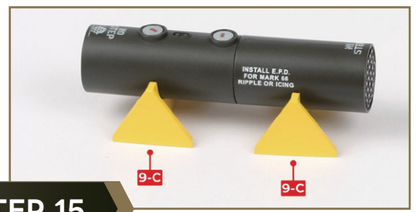
STEP 13

**將 9-E 壓入 9-D。**
Push 9-E onto 9-D.



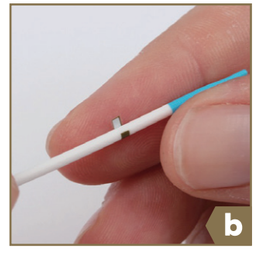
STEP 14

**取出圖示中的水貼(5-V)。**
**將水貼 A、B、C 貼附至組件上。**
Take the decals pictured (5-V).
Apply decals A, B and C to the assembly.



STEP 15

**可利用零件 9-C 固定火箭彈倉，方便貼附水貼。**
Parts 9-C can be used to hold the rocket launcher.



STEP 16

**將水貼貼附至 9-M。**
**請確認水貼的位置與方向，並與**
**前幾個階段完成的火箭彈保持一致。**
Apply a decal to 9-M, checking the alignment with the rockets from previous stages.

STEP 17

**對每一個 9-M 重複步驟 16。**
Repeat this step for each 9-M.

## STAGE COMPLETE
